Education

Pohang University of Science and Technology Expected Aug 2027

B.S. in Mathematics

Overall GPA: 4.19/4.30; Mathematics GPA: 4.28/4.30 (self-calculated).

Selected Advanced Coursework

Graduate-level: Real Analysis I–II (MATH514–515); Functional Analysis (MATH519); Partial Differential Equations (MATH517); Nonlinear Partial Differential Equations (MATH647); Probability Theory (MATH531).
Advanced undergraduate: Theory of Analytic Functions (MATH410); Introduction to Partial Differential Equations (MATH313).
In progress: Microlocal Analysis (MATH 279, UC Berkeley)

Preprints

Sharp dynamical isoperimetric principle for mean curvature flow.
Advisor: Beomjun Choi.
Coauthors: Wenkui Du and Seung Chul Park.
Preprint, 2026. arXiv:2610.10461.
This is a study on the extinction time of compact hypersurfaces in Euclidean space under weak mean curvature flow from an isoperimetric perspective. It establishes a sharp upper bound on the extinction time in terms of the initial surface area and proves that equality holds only when the flow is a shrinking sphere.

Talks

KAIST Student Geometric Analysis Seminar 2025–2026

Compactness of Noncollapsed Mean Curvature Flow
No Mass Drop Theorem for Mean-convex Level Set Flow

Honors and Awards

Hansung Nobel Scholarship 2019

Hansung Son Jae-han Scholarship Foundation

Selected through a nationwide competition recognizing promising high school students with the potential to become leading scientists and researchers.

POSTECH Pathfinder Fellowship 2022–

Pohang University of Science and Technology (POSTECH)

Awarded funding to pursue self-directed research, international academic experiences, and professional development.

Selected Attended Conferences

KIAS 21st Geometry Winter School 2026

Rutgers Gauge Theory, Low-Dimensional Topology, and Geometric Analysis Conference 2026	2026
ICM 2026	2026
Lehigh Geometry and Topology Conference	2026
